CERTIFICATIONS

- DevDay & Procom Finalist (2022–2025)
- Git & GitHub Mastery (FAST Bootcamp)
- Email Writing & Client Communication – Coursera (2024)

PROJECTS

Weather App (React) – 2023

Live weather forecast with search and responsive design using OpenWeatherMap API.

Web Scraper (Python + Selenium) – 2024

Scraped 18k+ job records, auto-exported to CSV with logging and retry logic.

Railway Reservation System (PHP + PostgreSQL) – 2023

Created complete seat booking logic with user/admin dashboards.

Chat Support Clone (React + Firebase) – 2024

Built a dummy chat support system for showcasing frontend-agent interaction.

WordPress Optimization (cPanel) – 2023

Improved Google PageSpeed from 60 to 98 across 5 sites with SEO tweaks.

Portfolio Website (Next.js + TypeScript + Tailwind CSS) – 2025

Coming soon – personal portfolio site showcasing full-stack work. Finalizing deployment on Vercel.

HEX-AI Maze Puzzle Solver (Python + Pygame) 2025 – A visual interactive app demonstrating BFS, DFS, and A* path-finding algorithms on mazes—great for showcasing both algorithmic thinking and UI skills
